

WEBEX (SOCIO) VIRTUAL ENGAGEMENT APPLICATION

Webex is a video conferencing tool that will connect virtual participants to the State of the Space Industrial Base conference and associated workshops. It serves a similar function to Whova and has a similarly intuitive UI. Users will be able to participate in events by attending plenary and working group sessions, network with other attendees both virtual and in-person, and view information about the event.

JOINING A MEETING VIRTUALLY WITH THE WEB APP

After registering for a workshop, you will receive an invite link from info@newspacenm.org. Clicking on the link will take you to the Socio registration page. **Create an account with the email that you registered with**, click on the event, then enter the code provided in the email to join the session. It's recommended to join early to familiarize yourself with the Socio interface.

ENGAGING WITH THE MOBILE APP

In the App Store (Apple) or Google Play Store (Android), download the "NewSpace" app. Once downloaded, it will prompt you to create a Socio account. **Create an account with the email that you registered with**. Once created, you will be able to see the ongoing event on the home screen of the app. Join with the code provided in the email.

Home

This page displays items such as the agenda, other attendees, and announcements.

Agenda

The agenda shows all upcoming working group and plenary sessions. Times are shown in local time and user-specific time zone.

Attendees

On the attendees' tab, you can view all other participants in the event. Tap the "add" button to connect with someone.
