

Commitment & Pay It Forward Pledge

To achieve our vision of helping space innovators make the world (and beyond) a better place, we ask NewSpace Ignitor companies to consider signing our Commitment & Pay it Forward Pledge.

Leading financial institutions expect the global space sector will triple in the next decade and become a multi-trillion dollar market over the next 20 years. Yet, substantial barriers exist for promising space companies to succeed in bringing their innovations to market. NewSpace New Mexico launched NewSpace Ignitor to reduce these barriers by supporting space companies beyond the start-up phase from concept to product to sales. You will continue to experience first-hand the power of NewSpace New Mexico's programming, resources, connections and relationships and the value we provide to space innovators. NewSpace New Mexico is committed to support future entrepreneurs with the same resources made available to you through our tiered NewSpace Ignitor program structure.

Your Commitment

In return for the services provided and to enable greater success for you through NewSpace Ignitor, we ask that you participate as much as possible, give us feedback so we can improve the program, let us know about the future successes you have that might be tied to our services or introductions and be positive ambassadors for NewSpace New Mexico. Your commitment will help us so we can better assist you and others like you. Your feedback will also significantly help us in our efforts to secure additional sources of funding to help more companies after our initial period of congressional funding ends.

Paying it Forward

If you complete a capital raise or benefit from NewSpace New Mexico's programming or ecosystem, we invite you to support the benefits we offer to our community by making a pledge. This essentially pays it forward so that we can consistently deliver pro bono services, from which you benefited, to future entrepreneurs.

Why Make the Pledge?

By supporting the next generation of innovators, your generosity will further NewSpace New Mexico's ability to help more companies, strengthen the industrial base, and make the world (and beyond) a better place. Your contribution will also help fund important new programs such as NewSpace Pathways, which will build a stronger, more equitable, space-ready workforce. In short, since NewSpace New Mexico is a non-profit, your support will enable us to help more companies like yours gain access to the services and resources they need.

How it Works

You simply need to sign this document to confirm your intent to 1) continue to fully commit to the program, 2) donate or give back to NewSpace New Mexico upon a successful capital raise and 3) keep us up to date on your successes that can be attributed to your participation the program. The donation can be monetary or equity based or involve volunteering your time. It is not legally binding.
